

Introduction

Long before the European explorers came to the Americas, the Aztecs, the Incas and the Mayas lived here. In this WebQuest we will examine the three indigenous civilizations.

The Task

Each group will be assigned a civilization (the Inca, the Aztecs or the Maya) that they will be responsible for reporting to the class about.

The Process

After you have researched and gathered your information from the internet you will create a PowerPoint presentation. Make sure that you know the answers to the following questions:

Location : Where did the people live?

Building/Architecture : What did the people build?

Time line : When did the people live and what were their accomplishments?

Inventions/contributions : What are the people remembered for or what did they invent?

Clothing : What did the people wear?

Food: What did the people eat? Did they grow or raise their own food?

Recreation: What did the people do for leisure?

Resources

Category	Points Possible	Points Earned
Research	10 points	
Building/Architecture	10 points	
Time Line	10 points	
Inventions/Contributions	10 points	
Clothing	10 points	
Food	10 points	
<u>Recreation</u>	<u>10 points</u>	<hr/>
Total Points	70 points
